## CONTENTS

|                                                                                                                                                                                                                  | <i>Page</i> |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| 1. <b>Tho-Hue Le, Hong-Khiem Phan, Thi-Hong Trinh, Thanh-Tuyen Ha, Khanh-Ngan Nguyen, Kim-Ngan Nguyen Thi</b> , The standard model-like higgs boson decay $h \rightarrow Z\gamma$ in the 3-3-1 simple model..... | 3           |
| 2. <b>Xuan-Phong Ong, Thi-Thuong Ngo, Viet-Hong La</b> , Optimization of extraction of flavonoid and polyphenol from <i>Camellia megasepala</i> leaves and their anticancer activity .....                       | 12          |
| 3. <b>Duc-Tam Luong, Thu-Loan Vu Thi, Thi-Ngoan Dang</b> , A Lagrange function approach to study second-order optimality conditions for infinite-dimensional optimization problems .....                         | 20          |
| 4. <b>Tien-Manh Nguyen</b> , On the multiplicity of graded fiber cones with arbitrary dimensions.....                                                                                                            | 31          |
| 5. <b>Thuy-Tien Do, Thi-Huyen Nguyen, The-Duyen Nguyen, Huu-Tap Van</b> , The ammonium adsorption capacity of coffee husk-derived activated carbon composite with $MnFe_2O_4$ .....                              | 39          |
| 6. <b>Thanh-Xuan Cao Thi</b> , Cost-benefit analysis: utilizing mathematics to optimize economic project decisions.....                                                                                          | 48          |
| 7. <b>Kim-Thanh Tran Thi</b> , Big Data and business network analysis: applications in management and optimization .....                                                                                         | 60          |
| 8. <b>Hanh-Le Nguyen Thi</b> , Harnessing the power of Big Data: transforming market prediction and supply chain optimization.....                                                                               | 71          |
| 9. <b>Thi-Nhung Nguyen</b> , Blockchain with IoT to enhance security, data integrity, and automation.....                                                                                                        | 84          |
| 10. <b>Thi-Thuy Le</b> , The existence and uniqueness of weak solutions to three-dimensional Kelvin-Voigt equations with damping and unbounded delays .....                                                      | 95          |
